presents

An Outstanding Selection of United States Pattern Coins

FEATURING THE INCOMPARABLE COLLECTION OF
MAJOR LENOX R. LOHR OF CHICAGO, ILLINOIS.

EMPIRE COIN COMPANY, INC.
O'Neil Building
Binghamton, New York

EMPIRE COIN COMPANY, INC. presents an outstanding selection of United States pattern coins, consisting mainly of the incomparable collection formed by Major Lenox R. Lohr.

The coins are classified by Adams and Woodin numbers and cross-indexed to Judd numbers. The two standard references are: United States Pattern, Trial and Experimental Pieces by Edgar H. Adams and William H. Woodin (copies may be ordered from us for $7.50 postpaid) and United States Pattern, Experimental and Trial Pieces by Dr. J. Hewitt Judd. Prices are for coins in Proof or Uncirculated condition (the appropriate conditions in which they were issued), unless stated otherwise. Prices are net. An order blank and postpaid envelope are enclosed for your convenience. Satisfaction is guaranteed on all items. If possible, list second choices. This will eliminate the mutual disappointment of an unfilled order. Second choices will not be used unless the first items have been sold.

Advanced collectors will welcome this catalog as the most extensive listing of patterns for sale ever compiled in the United States. In this catalog you will find the most desirable and the most elusive issues of the United States Mint.

The first coins produced at the United States Mint in 1792 are seldom seen and are still more seldom offered for sale. An offering of 1792 coins equal to the selection presented here may never be made again.

Pattern cents have always been popular. The addition of patterns to an Indian cent set, for example, changes it from an everyday display into a centerpiece of interest. Here is an unprecedented offering of dozens of different varieties.

The half dime, dime, quarter, half dollar and dollar sections contain many patterns that have not appeared on the market during the past decade. Few persons can deny that the patterns of Longacre, Morgan and Barber during the 1870's and 1880's are far more beautiful than their regular issue counterparts. The listing of the Standard Silver issues of the 1860's and 1870's is one of the most complete ever compiled.

The offering of the four different Stellas in gold, the two of 1879 and the two of 1880, should create considerable interest. These coins become almost legendary.

There is one curious discrepancy concerning pattern coin prices. Most numismatists are not aware of the hundreds of different and interesting pieces in the pattern series. We are now only on the threshold of pattern collecting. As knowledge of patterns becomes more and more widespread, today's prices will seem extremely low. The numismatist of the future will wistfully look back on the day when a pattern coin of which fewer than a dozen pieces are known sold for under one hundred dollars...much as we now regard coin prices of the 1890's. Paradoxically, some of the highest priced pattern coins today are the most common. What is one of the most expensive pattern cents? The 1856 flying eagle. It is the commonest of all cent patterns and is high priced only because collectors have widespread knowledge of its existence. There are pattern cents hundreds of times rarer that sell for a fraction of the cost.

Other patterns that have been adopted into the regular series are the transitional half dimes and dimes of 1859 and 1860, the 1836 reeded edge half dollar, the 1836, 1838 and 1839 Gobrecht dollars and the Stellas of 1879 and 1880. These coins are not the bargains of today, they were the bargains of yesterday before the demand for them became great.

Where are the bargains of today? You will find them listed in this catalog, by the hundreds.

The study and collection of pattern coins is one of the most fascinating in American numismatics. The story of pattern coins was succinctly stated by Patterson DuBois, writing for the "American Journal of Numismatics" in January, 1883: "And the pattern goes forth on a mission, weaving from the ravelling threads of what might have been, the prophetic picture of what ought to be."

Empire Coin Company, Inc.

Major Lenox R. Lohr

Lenox R. Lohr, president of the Museum of Science and Industry in Chicago since 1940 and trustee since 1935, began his civilian career as general manager of the Chicago World's Fair of 1933 and 1934. From 1935 to 1940 he was president of the National Broadcasting Company.

In recent years, in addition to his work at the Museum, he has served in the following capacities: president, Chicago Railroad Fair, 1948-1949; director, Illinois Civil Defense Agency, 1950-1953; president, Centennial of Engineering, 1952; president, Society of American Military Engineers, 1954 (awarded Distinguished Service Medal); president, Mary Thompson Hospital, 1952-1954; vice-president, WTTW, 1953-; chairman, Illinois Commission on Higher Education, 1954-1959; chairman, Metropolitan Fair and Exposition Authority, 1955-1957; chairman, Military-Industrial Conferences, 1955-1959.

Major Lohr was commissioned in the regular Army in 1916 and served for thirteen years in the Corps of Engineers. He was awarded the Silver Star medal for gallantry in action in the Meuse Argonne in World War I. After his service in the First World War he served as editor of The Military Engineer.

At the present time he is a director of Montgomery Ward & Company, Mary Thompson Hospital, Catholic Charities, Metropolitan Fair and Exposition Authority and a trustee of La Rabida Sanitarium, the Edison Foundation and the Dawes Arboretum.

Also, he is a director of the University of Chicago Citizens Board, chairman of the University of Chicago Citizens Committee, a member of Loyola University Citizens Board, Northwestern University Associates, the President's Committee of Notre Dame, the Crerar Library Associates, the Board of Governors (honorary) of the Chicago Heart Association, the Advisory Board of the Deutsches Museum of Munich, Germany, the Edison Pioneers, the Society for the History of Technology and the University of Chicago Cancer Research Foundation. He is a Fellow of the Institute of Medicine in Chicago.

Major Lohr graduated from Cornell University in 1916 in mechanical engineering. Following graduation he attended the Army General Staff College, Clare College of Cambridge University, the Coast Artillery School and the School of Codes and Ciphers. The following honorary degrees have been conferred upon him: Illinois Institute of Technology, D. Eng.; Knox College, LL.D.: Rensselaer Polytechnic Institute, C.E.; Shurtleff College, D.Sc.; Bradley University, D.Sc.; Loyola University, LL.D.; and De Paul University, LL.D.

He has authored Magazine Publishing, Television Broadcasting and Fair Management and has edited Centennial of Engineering.

In 1954 the Secretary of the Navy conferred on him the Navy Distinguished Public Service Award. In 1961 the Army awarded him its Outstanding Civilian Service Medal.

He is a member of the following organizations: life member of the American Society of Civil Engineers, Society of American Military Engineers, Washington Academy of Sciences, Phi Sigma Kappa, Chi Epsilon and Scabbard and Blade. He is a member of the Chicago Club, National Press Club, Economic Club of Chicago and Commercial Club. His hobbies have ranged from an extensive collection of antique automobiles through fine collections of pattern coins and antique films to firearms.

Major Lohr was born on August 15, 1891, in Washington, D.C., and was married in 1924 to Florence Josephine Wimsatt (M.A., M.D.). The Lohrs have five children and reside at 1401 Ridge Avenue, Evanston, Illinois.

United States Mint Issues of 1792

1792 Disme, copper, plain edge. Not in AW; Judd 11. One of two specimens known to exist. The other is impounded in the J.W. Garrett collection of Johns Hopkins University...forever unobtainable. Choice Extremely Fine condition. $9750.00

1792 Half Disme, silver, reeded edge. Good, popular. $250.00

1792 Half Disme, copper, plain edge. AW 5, J.8. Unique. From the collection of Lorrin Parmelee. A unique coin of the first year of Mint operation...it would be difficult to envision a more desirable coin. An opportunity which may never be repeated. $9750.00

1792 Small cent, type of the silver center cent but without the silver center. Very Good condition. The only specimen available to numismatists. Dr. Judd notes that the other known specimens are permanently impounded in the Smithsonian Institution, Johns Hopkins University and the Massachusetts Historical Society. AW 7, J.2. $3750.00

1792 Silver center cent. AW 8, J.1. Light brown AU condition. Probably the finest known. The owner of an inferior impaired specimen has refused an offer of over $5000.00. Our coin is available for $6750.00. (Which makes the prices of the unique or nearly so 1792 items on this page seem like bargains) There are six or seven known specimens of the 1792 silver center cent.

1792 Birch Cent. Edge inscribed: TO BE ESTEEMED BE USEFUL. AW 10, J.4. Extremely Fine condition. Extremely rare. $6250.00

1792 Half Eagle, designed by Jean Pierre Droz. White metal. Not in AW, J.13. Uncirculated. Unique. $9750.00

An offering of 1792 coins such as the above probably never will occur again. Of the seven different coins listed above, two are absolutely unique and two more are unique as far as availability is concerned...the few others are in museums.

The prices of these 1792 rarities are reasonable when their uniqueness and desirability are considered. A unique later issue United States coin, such as the 1870-S $3 gold, would probably sell for over $30,000.00 if offered publicly. The 1822 half eagle, of which three specimens are known, would undoubtedly do likewise.

This is truly a once-in-a-lifetime opportunity.

* * * *

Pattern One Cent Pieces

1850 Ring cent. AW 114, J.119. Perforated. Silver plated at the Mint.$55.00

1850 Ring cent. AW 115; J.120. Unperforated. Silver plated as above.. 55.00

1884 Perforated cent. AW 1704;J.1721. Thin planchet..... 77.50
1884 Perforated cent. AW 1705; J.1721. Thick planchet..... 77.50
1884 Perforated cent. AW 1706; J.1722. Aluminum..... 77.50
1885 Perforated cent. AW 1723; J.1740. Silver..... 130.00
1890 Indian...regular dies in bronze, thick planchet. AW 1726;J-.... 55.00
1890 Indian...regular dies in brass. EF condition. Unlisted. Rare.... 135.00

Pattern One Cent Pieces - continued

1896 Shield design. AW-;J.1769. Aluminum. Ex.rare.....$175.00
1942 Cent. Obverse: Head of Liberty facing right surrounded by: LIBERTY - JUSTICE and date, 1942 beneath. Reverse: UNITED STATES MINT within wreath. Apparently this piece was struck to test the feasibility of metals other than bronze for coinage. Specimens have been reported or seen in bronze, white metal, zinc coated steel, bakelite and cardboard. The result of this testing was the use of zinc coated steel in the following year, 1943. A most interesting piece. Bronze Proof $475.00; Zinc coated steel, Unc..... 395.00

Miscellaneous items pertaining to cents:

1937 Lincoln cent, reeded edge, Unc. Reeding done outside of the Mint. Listed and unpriced in the 10th edition Guidebook..... 40.00
